Z P HIGH SCHOOL

## WORK EXPERIENCE

### Jr. Software Engineer, Lonrix Private Limited

July 2024 - Aug 2025

- Developed and maintained dynamic, responsive web applications using ASP.NET Razor Pages and Web Forms, enhancing UI performance and user experience
- Designed and implemented intuitive fronted interfaces using HTML, CSS, JavaScript, jQuery, and Bootstrap, ensuring cross-browser compatibility and mobile responsiveness
- Integrated fronted components with server-side logic using C# and Razor syntax, enabling seamless data flow between UI and Backend.
- Build and managed form-based workflows, data validation, and input handling in Web Forms, supporting various business processes.
- Consumed and integrated RESTful APIs to fetch and display data in real-time, improving interactivity and functionality of the platform.
- Utilized Visual Studio, Entity Framework, and SQL Server for backend development, data modeling, and business logic implementation.
- Participated in requirements gathering, UI/UX discussions, and sprint planning meetings, contributing to the overall system design and user flow

## SKILLS

- Frontend Technologies : HTML, CSS, Bootstrap, JavaScript, jQuery, React JS
- Backend & Frameworks : .NET, C#, ASP.NET Core, Python, PHP, Node JS
- Database : MySQL, SQL Server, Entity Framework
- Version Control : Git, GitHub
